Sr. Front End Developer | Angular | JavaScript

Highly skilled and meticulous **Front-End Developer** with **3 years** of experience in creating innovative and user-friendly websites. Proficient in **Angular, JavaScript, HTML, CSS, responsive design, RESTful APIs, Git and agile development**. Strong problem-solving abilities and a keen eye for detail. Collaborative team player with excellent communication skills. Dedicated to delivering exceptional results through **clean and efficient code**.

Key Expertise:

Front-End Development with Angular & TypeScript

Proficient in building scalable, maintainable web applications using Angular 2+ and TypeScript, including UI libraries like Angular Material, Bootstrap, and PrimeNG.

Reactive Programming using RxJS and NgRx

Skilled in managing state and handling asynchronous operations in a reactive manner for modern web applications.

RESTful API Integration & Web Technologies

Strong experience working with REST APIs, and using JavaScript, JSON, AJAX, and jQuery for dynamic client-server communication.

Version Control & CI Tools (Git, GitHub, GitLab, AppEngine)

Comfortable using Git and related platforms for versioning, collaboration, and deployment pipelines.

Testing & Quality Assurance

Hands-on experience with unit testing using Karma and Jasmine, regression testing, manual testing, and test case management using tools like TestTracker.

Agile Development & Project Collaboration

Experienced in working within Agile methodologies, using tools like Jira and Buganizer for task and issue tracking, and collaborating effectively with cross-functional teams.

Debugging, Troubleshooting & Code Optimization

Strong analytical and problem-solving skills to identify and fix complex UI/UX and performance issues, with a focus on clean, optimized code.

Experience

Accenture Pvt. Ltd., Sr. Software Engineer

3.8 Years
Oct 2021 – Present

- Developed and maintained scalable enterprise-grade web applications using Angular (2+), TypeScript, HTML, CSS, Bootstrap, and Angular Material.
- Led front-end development efforts on government and enterprise platforms, improving usability and performance across modules.
- Collaborated with cross-functional teams to analyze requirements, plan UI architecture, and integrate RESTful APIs for dynamic content rendering.
- Conducted extensive code refactoring and optimization, resulting in enhanced application performance and maintainability.
- Executed bug fixes, debugging, and regression testing, reducing UI issues and increasing overall software reliability.
- Designed and implemented test scenarios with unit testing using Karma and Jasmine, maintaining high-quality standards and functional integrity.
- Actively participated in Agile ceremonies, used Jira and GIT/GitLab for sprint planning, task tracking, and version control.
- Contributed to Test Automation development and supported the team in ensuring

timely, high-quality delivery across multiple concurrent tasks.

Key Projects:

- **Child Welfare App**

Developed a public-sector welfare system to monitor and manage financial aid distribution for underprivileged children. Enabled real-time tracking, automated reporting, and improved transparency across welfare activities through an intuitive, responsive UI.

- **E-Commerce App**

Built a robust e-commerce platform for a telecom client to support the online sale of eSIMs, SIM cards, phones, tablets, data plans, and network devices. Delivered a seamless customer journey, from browsing and selection to secure checkout, enhancing user experience and digital accessibility.

- **Tools & Technologies:** Angular, TypeScript, JavaScript, HTML, CSS, Bootstrap, Angular Material, RxJS, NgRx, Git, GitHub, GitLab, REST APIs, Jira, Karma, Jasmine, Agile Methodology

Technologies

Web Technologies: JavaScript, TypeScript, Angular2+, ReactJs, HTML, CSS, RESTful APIs, JSON, Figma

Reactive Programming: RxJs, NgRx

UI component Libraries: Bootstrap, Angular Material, PrimeNG

Version Control: Git, GitHub, GitLab, AppEngine

Project Management Tool: Jira, Buganizer

Testing: Unit Test (Karma, Jasmine), Test case creation, regression testing, manual testing, TestTracker Tool

Development Environment: Agile methodology

Certifications

Angular Developer - Accenture.	Jan 2022
Front End certification - Meta	Dec 2023
Basic React certification- Meta.	Jan 2024
Programming with JavaScript Certification - Meta	Mar 2024

Education

BE	Shivaji University , Computer Science & Engineering	Aug 2017 – Aug 2021
	• Percentage: 74%
